GoEngineer Acquires ITHENA

Acquisition adds ITHENA's AI-led manufacturing solutions with managed services & consulting expertise in IoT, analytics, and AI to GoEngineer's engineering and manufacturing solutions

SALT LAKE CITY, Utah – November 12, 2026 – GoEngineer, the world's largest full-service engineering solutions provider and premier authorized partner for Dassault Systèmes, Stratasys, Bright Laser Technologies, and other leading technology vendors, announces the acquisition of ITHENA, a Richmond, Virginia-based digital solutions provider that helps manufacturers connect and act on their operational data through IoT, analytics and AI. ITHENA delivers innovative digital solutions to manufacturers worldwide. With a strong presence in the United States and India, ITHENA combines AI-powered manufacturing solutions with expertise in managed services and consulting across IoT, advanced analytics, and artificial intelligence (AI). These capabilities strengthen and expand GoEngineer's portfolio, enabling comprehensive, end-to-end digital transformation across the entire engineering and manufacturing lifecycle.

> *"ITHENA has built a strong team and an impressive technology platform with a track record of delivering measurable value to its customers," said **Justin Winter, CEO of GoEngineer**. "Bringing our teams together enhances our ability to provide a comprehensive set of solutions to the market, from design and engineering through production. We're excited about the opportunity ahead as we welcome the ITHENA team to GoEngineer."*
>
> *"Joining GoEngineer enables us to take our solutions into the marketplace with an impressive customer base, while our customers get access to a much broader set of solutions and expertise." said **Probodh Chiplunkar, Founder and CEO of ITHENA**. "We're excited about what our combined teams can do for customers."*

ITHENA customers will continue working with their current contacts, and both companies will work closely together over the coming months to integrate operations.

About GoEngineer

GoEngineer is the world's largest full-service engineering solutions provider, serving tens of thousands of customers across high-tech, medical, aerospace, energy, and industrial manufacturing. GoEngineer supports the entire product lifecycle, from strategy and system

implementation to operational optimization and hands-on engineering execution, helping organizations innovate faster and operate more efficiently.
With more than 40 years of experience and operations across the United States, Canada, and Latin America, GoEngineer delivers a depth of capability and partnership that no other engineering solutions provider can match. Learn more at goengineer.com.

About ITHENA

ITHENA is a digital solutions and services provider that helps manufacturers integrate digital technology with their business processes, using IoT, analytics, and AI to improve operational efficiency and profitability. ITHENA is headquartered in Virginia with operations in India.
