

PRESS RELEASE

GoEngineer Acquires Inceptra, Strengthening Its Position as a Leading Provider of Engineering Solutions [Midvale, Utah] – [August 26, 2024] –

As of Tuesday, August 13, 2024 GoEngineer, a recognized leader in providing best-in-class design and engineering solutions, formally acquired Inceptra. Inceptra is a prominent provider of PLM and advanced CAD software solutions headquartered in Weston, Florida. This strategic move expands GoEngineer's portfolio and reinforces its commitment to delivering cutting-edge technology and exceptional support to customers across a broad range of industries.

Ken Coburn, President and Owner of GoEngineer, expressed his enthusiasm for the acquisition:

"We are thrilled to welcome Inceptra into the GoEngineer family. This acquisition marks a significant milestone in our journey to offer the most comprehensive and innovative solutions to our customers," says Coburn. "Inceptra's expertise and strong industry presence will enable us to further elevate our service offerings and continue our mission of empowering engineers to create amazing products."

Tim Petersen, CEO of Inceptra, shared his perspective on the acquisition:

"Joining forces with GoEngineer represents an exciting new chapter for Inceptra. We have always been dedicated to helping our customers achieve their engineering goals, and this partnership allows us to enhance that commitment. Together with GoEngineer, we will be able to provide even greater value and support to our customers, ensuring they have the tools and resources they need to succeed in today's competitive market."

The acquisition is expected to bring significant benefits to the combined customer base, offering an expanded range of solutions with enhanced support and expertise for CATIA, ENOVIA, DELMIA, SIMULIA and 3DEXPERIENCE. It will also give Inceptra customers access to SOLIDWORKS, Additive Manufacturing solutions from Stratasys, and to GoEngineer's industry-leading resources.

About GoEngineer

GoEngineer has been at the forefront of technical innovation for over 40 years helping engineering, manufacturing, and product design companies stay competitive. Our solutions

800.688.3234 | [GOENGINEER.COM](https://www.goengineer.com)

portfolio contains products from Dassault Systèmes and industry-leaders in 3D printing from Stratasys, as well as 3D Printing Services. Customers have access to thousands of training resources, on-demand support, customer portal access, mentoring sessions, and a unique interactive community with other engineers.

About Inceptra

Inceptra is a leading provider of PLM technology and services to engineering and manufacturing companies across a variety of industries. We are a Dassault Systèmes Platinum Partner dedicated to the 3DEXPERIENCE portfolio, best-in-class complementary software, and internally developed PLM acceleration solutions. Inceptra combines these product offerings with top-notch implementation, training, support, and consulting services, including integration and automation services, to help our customers capitalize on their Dassault Systèmes software investment. With over thirty years of results-focused experience providing extensive solution and process expertise, we enable our customers to digitally design, simulate, produce and manage their products, improving their time to market, competitiveness, productivity and profitability.
