

## GoEngineer Appoints Justin Winter as Chief Executive Officer

*Industry veteran with deep enterprise services and partner-driven growth experience named to lead company's next chapter.*

**Salt Lake City, Utah — May 15, 2026** — GoEngineer, the world's largest full-service engineering solutions provider and premier authorized partner for Dassault Systèmes, Stratasys, Bright Laser Technologies, and other leading technology vendors, announced the appointment of Justin Winter as Chief Executive Officer, effective May 2026. Winter is a seasoned enterprise technology executive with more than 30 years of experience building partner-driven organizations and scaling professional services businesses at global companies including IBM, Oracle, and Hitachi Consulting.

Winter's appointment comes as GoEngineer enters its next phase of growth, with an increased focus on expanding its professional services capabilities. His background leading large-scale services organizations and building strategic partnerships positions him well to accelerate that vision while preserving the customer-first culture GoEngineer is known for.

*"I am thrilled to join the GoEngineer team and build on the incredible foundation Ken and the team have created. GoEngineer's commitment to its customers and its culture of excellence are what drew me here. I look forward to working alongside this talented team to deliver even greater value as our customers tackle the engineering challenges of tomorrow."* — **Justin Winter, CEO, GoEngineer**

### Honoring Ken Coburn's Legacy

Since founding GoEngineer in 1984, Ken Coburn built far more than a successful company. Over 42 years, he grew GoEngineer from its earliest beginnings into one of the most respected organizations in the industry — known not only for its business success, but for its people, its values, and its unwavering commitment to customers and partners.

Ken's impact runs deeper than any single milestone. The entrepreneurial mindset, humble leadership approach, and people-first culture that define GoEngineer today were shaped in large part by his vision and example. He helped establish how the company thinks, hires, leads, and shows up for its customers — instilling values that have become part of GoEngineer's DNA.

GoEngineer is stronger than it has ever been, and exceptionally well positioned for the future — a testament to the foundation Ken built. The company is deeply grateful for his leadership, vision, and belief in what GoEngineer could become, and is committed to carrying that legacy forward.

*"Building GoEngineer has been the honor of my career. What makes this company special isn't any one person. It's the people, the culture, and the commitment to our customers and partners that have defined us from day one. In Justin, I see someone who genuinely understands that. He has the experience to grow what we've built and the character to protect what matters most. I couldn't be more confident in handing the reins*

*to him, and I look forward to watching GoEngineer thrive in this next chapter.”*

— **Ken Coburn, Founder & Outgoing CEO, GoEngineer**

## **About GoEngineer**

GoEngineer is the world's largest full-service engineering solutions provider. Serving tens of thousands of customers across high-tech, medical, aerospace, automotive, energy, and industrial manufacturing. GoEngineer supports the entire product lifecycle, from strategy and system implementation to operational optimization and hands-on engineering execution, helping organizations innovate faster and operate more efficiently.

With more than 40 years of experience and operations across the United States, Canada, and Brazil, GoEngineer delivers a depth of capability and partnership that no other engineering solutions provider can match. Learn more at [goengineer.com](http://goengineer.com).
