Schedule if no field visits have been performed within the contract year.

*New machines include Emerald maintenance package for 12 months (warranty)

Telephone/Email Support | Monday – Friday

Digital Manufacturing Technical phone/email support

Telephone: **855.470.0647** Email: **AMsupport@goengineer.com**

Digital Manufacturing Consumables phone/email support

Telephone: **855.470.0647** Email: **caorders@goengineer.com**

All Machine Parts are Included (Excluding Parts Deemed Consumables by StratasyS)

- All software and firmware updates to the systems are included.
- Software/Hardware updates are provided at GoEngineer discern and can be combined with on-site visit for repair or maintenance (excluding optional updates).
- Wash station and secondary/post processing systems are not included with the printer maintenance

Diamond Care Service Consumables

- Diamond Care Order Form must be completed and submitted to MaterialsOrders@stratasys.com to be included in the Diamond Care maintenance.
- See [Diamond Care Order Form](#) for a complete list of service consumables.

Labor Included

Labor for diagnosing, repair or maintenance included.

- On-site service visits occur when GoEngineer determines, in its sole discretion, that phone and email support cannot be rendered to resolve the problem.
- Assistance from customer with diagnosing and performing tests is required within a reasonable amount of time as to allow GoEngineer to make the determination of the necessity of an on-site visit.

Preventative Maintenance Visit

- Diamond Care – PM visit performed once a year to check on normal wear and tear of the machine. Maintenance visits will usually occur somewhere between month 9–12 on a full contractual year (based on maintenance start date).
- Emerald Care – PM visit can be requested once a year if no field visit has been performed through the term of the current contract. Preventative maintenance visit must be completed before the annual maintenance terms expire.

PM Visit Includes

- Firmware/Software check/upgrade.
- Operational check of machine: belt, guide rods, blower fans, door lock, filter, purge bucket.
- Customer will need to provide GoEngineer technician modeling bases to perform calibration testing.

Travel Fees

- Travel Charge: \$300/overnight visit + Flight cost (or applicable travel fee from Toronto)
 - This applies for any visit, including preventative maintenance visits.
 - For on customers with an active maintenance contract, this charge applies on a "per incident" basis.

Recertification Process / Fee (\$1,500)

- Machine must be in good working condition
 - Identifying and repairing defective parts are required prior to a new maintenance contract
 - Recertification fee is waived if a new contract is put in place within 30 days after a repair.
 - *Working condition, meaning the system is operational. This includes but is not limited to the following: the printer is not missing parts, has not been dismantled, and/or has not sustained major damage, and the major components of the system (such as the mechanical and electrical components) function properly."
 - Replacement parts ordered within 30 day days of the recertification are not covered under the maintenance contract.
- Stratasys requires a Recertification Acknowledgement Letter to verify recertification eligibility.
