

WELCOME TO THE GOENGINEER FAMILY

Collaboration and partnership with our customers is at the center of everything we do. Our organization evolves directly from your feedback so don't hesitate to let us know how our team can help you.

With more than 35 years of experience, we have spent a lot of time tinkering with things, harnessing the power of leading edge tools, and building up our expertise. We encourage you to leverage our team of experts to help guide you from concept to manufacturing with best practices from a variety of industries and applications.

- Over 100 certified technical specialists
- Powerful product design
- Engineering and manufacturing tools

Providing you with a superior customer service experience is of the utmost importance to all of fully certified specialists and engineers available for 12 continuous hours throughout the business day, with full service offices throughout the United States.

Welcome to the GoEngineer family!

"Your Technical Support team members are amazing. Being wonderfully patient with me, extremely knowledgeable, ridiculously prompt with answers that are well thought and well communicated."

- Joe Smit, Perrigo

"Always appreciate your availability and awesome support! Many thanks for keeping me rolling with SolidWorks!"

- Kris Kelly, Subsite Electronics

"Awesome service and perfection as usual!! You guys are all still incredible!!"

Bruce Cain, Senior Designer - CIRCOR

"All support I get from all of you at Go Engineer I would rate as exceptional. You all are the greatest. Thank you so much."

- David Denwalt, Progressive Stamping

TOOLS & RESOURCES CREATED FOR YOU

Blog

Over 12,000 pieces of GoEngineer technical content straight from our engineering and support team members.

Video Library Search

Our video library for self-help on a variety of topics including SOLIDWORKS, Simulation, 3D Printing, PDM Professional, Composer, CAMWorks, Plastics & more.

3D Printing Services

Whether you need a quick prototype for testing or a full-functioning production part, GoEngineer's 3D printing services team can help you.

SOLIDWORKS Automation Tools

A collection of small "macros" that were tailored to help solve problems. Use, review, modify, and enjoy!

Certified Training Courses

Choose what method works for you: online in the virtual classroom, supported self paced, on-site at your facility, or at GoEngineer classroom.

Free Product Webinars

Continuing Education on products for your team. Hosted by Certified Instructors.

Work From Home Resources

Engineering resources & support to keep you productive working from home.

Kids' Camp

Basic introduction to SOLIDWORKS 3D CAD design & Stratasys 3D printing technology to youth 12-18 yrs. Kids discover cutting edge technologies to create future products.

Free Application Mentoring Session

As part of your SOLIDWORKS Service Agreement with GoEngineer, we provide Application Mentoring web-based sessions. One of our SOLIDWORKS experts can work one-on-one with you or present to your entire team.
